

ARYAN SHINDE

WEBSITE & APP DEVELOPER

About Me

As a 16-year-old with a passion for web and app development, I have spent the past two years honing my skills and creating numerous projects that showcase my talent and creativity. With experience in both web and mobile application development, I have gained a strong understanding of programming languages & software development tools.

In addition to my technical abilities, I have a deep-seated desire to use my skills to help others. Whether it's through developing websites and apps that address societal problems or teaching others how to code, I am always looking for ways to make a positive impact.

Currently, I am an active member of the Student Activity Committee (SAC) at IEEE Bombay Section, where I work alongside like-minded peers to organize events and initiatives that promote technical education and community service.

With a combination of technical

Projects

Dev Outlooks (Website & App)

Dev Outlooks is a platform where I like to showcase my skills by teaching Web & App Development there. I have also integrated many premium functionalities.

Coding Guidez (Website)

It is a website where everyone help each other for coding stuff.

Weather Forecast (Website)

Here we can see the weather status for any city in the world, by just a click.

TextUtils (Website)

We can manage the utility of the text using this website.

Achievements

24 Hour Coding Competition

Our team 'DevOutlooks' ranked 4th in the whole college i.e. in Vidyalankar Polytechnic.

IEEE Bombay Section (SAC)

I am currently a member in Operations Team in the Student Activity Committee (SAC) 2023 in IEEE Bombay Section.

Taught Students (Frontend Development)

I taught over 60 students (offline) in my college about Frontend development.

Conducted 10+ bootcamps online

I taught more than 100 students online by creating a community named Dev Outlooks on the topics of Web Development & App Development.

TECHNOTHON 2023 WINNER

I and our team won the first prize at the hackathon named 'TECHNOTHON 2023' which was held at VES Polytechnic.
